Installation of Electrical Disconnect/Generator Transfer Switch For Traffic Lights

The Town of Clifton Park seeks price quotes on Electrical Disconnect / Generator Transfer Switches to be Furnished and Installed. The purpose of the procurement is to allow 10 separate traffic lights within the Town to operate the Traffic Signal Lights during a power outage, by automatically switching to portable generators which will be used to operate the traffic lights during power outages. The Portable Generators being used are Honda, Model EU-2200-ITA – 2200 watts, AC Output, 18.3 Amps, 120 Volts, Inverter – Stable power for sensitive equipment. (separately procured)

The description of work that will need to be completed is as follows –

Furnish and Install Electrical Disconnect / Generator Transfer Switch

DESCRIPTION – The Contractor shall furnish and install a Electrical Disconnect / Generator Transfer Switch as shown on price quotation.

MATERIALS – The Contractor shall furnish a Electrical Disconnect / Generator Transfer Switch from a manufacture listed on the current New York State Department of Transportation Traffic Signal Laboratory’s Approved Product List.

INSTALLATION – The Electrical Disconnect / Generator Transfer Switch shall be attached to the Switch Cabinet via Labor and Installation charges that the contractor will show on his price quotation below.

COST BREAKDOWN – The unit price bid shall include the cost breakdown of all labor, material and equipment necessary to complete the work as shown on the contractors plans.

Material and Equipment (per Unit) \$ _____
Labor and Installation (per Unit) \$ _____

TRAFFIC CONTROL – The Town of Clifton Park will provide Traffic Control Monday – Friday between the hours of 7:30am – 4:30pm as needed.
